

The Australian Greens Online Guide to Pregnancy support services.

All-options pregnancy counselling services

The following genuine pregnancy counselling services will provide full information on all three possible options that follow an unplanned pregnancy – abortion, adoption or having a child. They will then work with the woman's own values to drive her own decision.

*Please check with individual service for exact nature of service available and hours of operation.

National website information - <http://www.abortion.org.au>

Deceptive Counselling Services

Many of these services have been set up with the intention of discouraging women from considering abortion. Many use misleading advertising techniques such as deliberately obscure organisation names that lead women to think they will receive genuine all-options counselling. The Australian Greens are campaigning to stop such dishonest behaviour. If you are seeking genuine all-options counselling The Greens recommend you DO NOT contact these services.
